

Final Report

Conor Dalton

December 2021

1 Predicting Bike Station Occupancy

1.1 Feature Engineering

1.1.1 Selection of Station

1.2 Machine Learning Methodology

1.3 Evaluation

2 Shorter Questions

2.1 ROC Curve

2.2 Situations Where Linear Regression will be Inaccurate

2.3 SVM Classifier vs. Neural Net Classifier

2.4 Operation of a Convolutional Layer in a ConvNet

2.5 K-fold Cross-Validation

A Appendix
